

SECRETARY OF THE NAVY BILL CHAMBERLAIN is to become editor of the Washington Republic in the place of Arthur's administration. The editorial chair is in the line of promotion for Billy.

PORTSMOUTH-GENERAL HAYDEN is to become the principal owner and the editor of the Chicago Times after the 4th of March. This means a division in the Republican ranks and a great deal of trouble for Merrill and the Tribune.

THE Paris correspondent of the Pittsburg Courier-Gazette announces the arrival in that city of the daughters of the late William W. Wadsworth. As John has always been regarded a plain Quaker bachelor, it is in order for him to rise and explain.

APPROXIMATELY Dr. Talma's absence from the Brooklyn Tabernacle, the New York World says he is "much interested in the late-arriving audience, from which he derives so much profit as well as pleasure in his last spring's tour through that region. Dr. Talma is popular, and he derives a good deal of solid satisfaction from the "real" South."

THE Conference of State Health Officers now in session at Washington was yesterday in receipt of assurances from nearly every city in the Union to the effect that all the precaution possible to the best sanitarian was being taken to prevent the spread of cholera should it find its way to this country next year.

THE main points of the pastoral letter pronounced by the Plenary Council of the Roman Catholic Church in the United States will be found in another column. It contains the results of the proceedings of that body, and will be found of general interest to the public, as well as of special interest to the members of the Catholic Church.

THE London lawyer, Charles Warren Adams, plaintiff in the recent Adams-Colvill case, died last night at his home in the city of New York. He was a prominent figure in the city, and his death is a great loss to the legal profession.

CONGRESS has appropriated from the Treasury \$100,000 to aid in the construction of the Panama Canal. This is a great step towards the completion of the great work, and will greatly assist the government in its efforts.

THE ex-mayor of St. Louis, the city clerk and Lieut. Duffy, of the police, united in a conspiracy with a professional crackman to blow one of the public affairs, where they expected to find \$50,000. The thief performed his part of the contract, but only found \$500, which he divided with his "pal" and "skipped the town."

Tax collection marks was quiet at the opening of business, but under the influence of a dull market at Liverpool and decline in both cash and speculation at New York and other places, business became easier during the day, and the market was more active.

THE death of Mr. Reuben Springer, the public benefactor to whose liberality Cincinnati is greatly indebted for many of the best of her public institutions, is a loss to that city that cannot be easily replaced. The Times says: "He was a good man, who held his wealth as a trust for the poor, and his life was a life of self-denial and sacrifice."

## ALARMING REVIVAL

Of Outrages in Ireland, the Special Seat of the Disturbances Being in Tralee.

The Organization of an Irish Election Fund in America Under Consideration by Parrell.

The French Treaty—Resolutions Presented to the Premier by the Duc d'Aumale.

LONDON, December 11.—Reports from Ireland indicate an alarming revival of outrages in progress. The special seat of the disturbances is Tralee, where armed men have brutally maltreated the man who was taking care of Sir Edward Deney's estate. The man injured is now in a precarious condition. The cause of this outrage was the recent eviction of a tenant for which the car-taker was held responsible.

IRISH ELECTION FUND. Parrell will decide about the scheme when an election is held in America. Parrell will decide about the scheme when an election is held in America.

THE French Treaty—Resolutions Presented to the Premier by the Duc d'Aumale.

LONDON, December 11.—Patrick Egan, president of the Irish League in America, has asked the Irish party to be united at present that the dissolution of the League is uncertain. He will decide in reference to the scheme when an election becomes certain.

THE French Treaty—Resolutions Presented to the Premier by the Duc d'Aumale.

LONDON, December 11.—The Duc d'Aumale, president of the Oise Council, has submitted to President Frey a resolution of the council praying that the increase of customs duties on all farming products shall not be reduced by existing commercial treaties, and thus enable the French farmer to compete with the foreign farmer.

FOREIGN NOTES. Cholera in Italy. The cases of cholera and five deaths are reported at Seggio, in the province of Salerno.

THE Cambodian Affair. PARIS, December 11.—A committee of the Chamber of Deputies today debated the Cambodian affair. King Norodon sent a protest to President Frey against the action of the French Government of Cochinchina.

STUDENTS' HOLE AT VIENNA. VIENNA, December 11.—A note circulated today among the students of the University of Vienna, stating that the students were to meet at the house of the late Count de Salm.

RECENTLY BY THE PHYSICIAN. PARIS, December 11.—A doctor has discovered a means of preventing the ravages of phylloxera by treatment with arsenic. Arsenic is a powerful poison, and its use is a great risk.

THE MARRIAGE OF THE PRINCE OF MONTENEGRO. LONDON, December 11.—The Prince of Montenegro has been married to the daughter of the Duke of Salm.

THE MARRIAGE OF THE PRINCE OF MONTENEGRO. LONDON, December 11.—The Prince of Montenegro has been married to the daughter of the Duke of Salm.

## THE PUBLIC HEALTH

Second Day's Session of the National Conference of Health Boards at Washington.

Sanitary Reports from Various Cities—Ample Precautions Being Taken All Over the Country Against the Introduction of Cholera—The Mortality Among the Negroes.

WASHINGTON, December 11.—At the second day's session of the National Conference of Health Boards the delegates from the various cities continued the presentation of sanitary reports.

Dr. Raymond, health officer of Brooklyn, said all the ponds in that city had been filled up and other sanitary precautions adopted. An Italian inventor presented a portable pump which would draw water from any source and pump it into a tank, and then pump it into a tank, and then pump it into a tank.

NEW ORLEANS. The Hum of Industries Hammered in All Directions.

NEW ORLEANS, December 11.—At the second day's session of the National Conference of Health Boards the delegates from the various cities continued the presentation of sanitary reports.

Dr. Smith, of New York, delivered a short address upon the water supply of that city, in which he urged that the supply from wells should be absolutely interrupted by the authorities, saying there was danger in every case from the use of such water unless it was absolutely pure.

Dr. J. G. Campbell, of Richmond, said the death rate in that city above the average, and he attributed the cause to the use of old-fashioned privies and cesspools.

Reports were also presented by Dr. Gray, of Pittsburg, and Dr. Gieseler, of Erie, Pa. The latter gave a humorous account of the difficulties encountered by the city of Erie in the matter of the quarantine and sanitary arrangements.

Dr. J. G. Campbell, of Richmond, said the death rate among the colored people was large as to exclude the city and the negroes, but he was not sure of the accuracy of the figures.
